

A NEW GENERATION OF SUBMACHINE GUN

# THE NEXT GENERATION OF SUBMACHINE GUN IS HERE

## Introducing the SIG MPX, a machine pistol that redefines the category.

- ▶ The SIG MPX is the world's first submachine gun that operates with a fully closed and locked rotating bolt system, greatly enhancing operator safety.
- ▶ The SIG MPX employs the SIG SAUER® battle-proven gas-operated short stroke piston system for unequalled reliability in the field, even under the most adverse conditions.
- ▶ The SIG MPX is the only submachine gun that allows the operator to change barrel length, caliber and stock configuration in the field to meet mission requirements.
- ▶ Bolt is held open on last round fired, common to all SIG short stroke piston systems.

# SIG MPX

### SIG MPX-K

- Compact variant – 4.5" barrel – Select Fire
- Aluminum rail-adaptable handguard
- 3 position telescoping stock shown

### SIG MPX-P

- Pistol variant – 8.0" barrel – Select Fire
- Carbon fiber rail-adaptable handguard shown
- Shown with SIG MPX Reflex Sight

### SIG MPX-SD

- Integrally suppressed variant – 6.5" ported barrel – Select Fire
- Extended aluminum rail-adaptable handguard
- 3 position telescoping stock shown

### SIG MPX-C

- Carbine variant – 6.5" barrel with 9.5" muzzle brake permanently attached – Semi auto
- Extended carbon fiber rail-adaptable handguard
- SIG MPX Reflex Sight included

## A NEW STANDARD HAS BEEN SET

- Easily convertible to 9mm NATO, .357SIG or .40S&W
- SIG SAUER® short stroke pushrod gas system – reduced recoil, superior reliability and reduced fouling
- Closed, fully locked rotating bolt system – providing maximum safety in case of bullet or water obstruction in the bore
- Monolithic upper receiver with integral M1913 rail at 12 o'clock and free-float barrel system
- Familiar AR-style controls & manual of arms with ambidextrous safety/selector and magazine release
- Rear charging handle will not interfere with rail mounted accessories
- User-configurable stock system: telescoping, folding or pistol configuration for maximum compactness

## SIG MPX

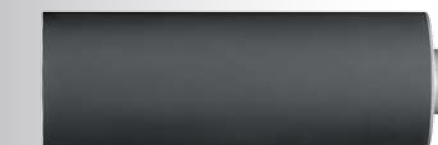

- Standard variant – 8.0" barrel – Select Fire or SBR
- Aluminum rail-adaptable handguard
- 3 position telescoping stock shown
