# SIG556<sup>®</sup> PATROL

## NEW EDITION

The new SIG556 Patrol rifle adds a compact forend in either the classic tapered profile or a quad rail configuration that allows the fast and simple attachment of numerous tactical accessories. When these features are combined with the carbine's length-adjustable folding and locking stock, the SIG556 is an ideal all-around rifle.

**SIG556 PATROL SWAT**  
*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*stock:* Folding / length adjustable  
*forend:* Alloy quad rail  
*upper receiver:* Steel, Nitron<sup>®</sup> finish  
*lower:* 7075-T6 aluminum, Hard coat anodize  
*weight w/out mag:* 7.7 lbs  
*length overall:* 36.1"; 34.6" collapsed; 27.1" folded  
*barrel length & twist:* 16"; 1 in 7"  
*magazine:* AR-15 Type, Polymer, 30 round  
*features:* Quad rail forend  
 Two-position gas valve

### Standard AR-15/M16 Magazine

30 round polymer magazine with integrated connecting feature for multiple magazines.

**Quad Rail Covers (optional)**  
 Light weight polymer covers offer protection for the quad rails and provide a comfortable gripping surface.

With reduced forend length, gas volume is regulated by a two-position valve that practically eliminates carbon build-up and firing residue, ensuring reliable function under the most extreme conditions. • Ambidextrous sling attachment.

**SIG556 PATROL**  
*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*stock:* Folding / length adjustable  
*forend:* Polymer  
*upper receiver:* Steel, Nitron finish  
*lower:* 7075-T6 aluminum, Hard coat anodize  
*weight w/out mag:* 7.5 lbs  
*length overall:* 36.1"; 34.6" collapsed; 27.1" folded  
*barrel length & twist:* 16"; 1 in 7"  
*magazine:* AR-15 Type, Polymer, 30 round  
*features:* Short gas system

## SHARED FEATURES

- Reduced length gas piston operating rod system for lighter weight
- Two-position adjustable gas valve ensures function in extreme conditions
- Rotating bolt
- Accepts standard AR type magazines
- 5.56 x 45mm NATO
- Military grade barrel ensures accuracy and durability
- Industry standard 1/2" x 28TPI muzzle thread w/ A2 flash suppressor
- Swiss design length adjustable folding stock
- Multiple sling attachment points

## OPTIONAL ACCESSORIES

- Mini Red Dot 1x optical sight
- Interlocking 30 round magazine

Model Specifications: see pages 62-63

Some models are shown with optional accessories that are not included.

# SIG556<sup>®</sup>

## THE NEXT GENERATION

The SIG SAUER<sup>®</sup> SG 550/551 weapons system earned worldwide recognition for reliability and accuracy. Now, SIG has managed to improve on perfection, tailoring the rifle for the American market, making it compatible with AR magazines. Enhancements include a Picatinny rail and folding, locking, length-adjustable stock making it even more efficient. The SWAT version replaces the tapered, ergonomic forend with a quad rail for accessorizing.

### STL-300J STOPLITE™

An ingenious combination of a vertical foregrip, tactical light and laser aiming module all-in-one. Provides 700 lumens\* of blinding light in either a steady beam or disorienting strobe.  
\*Approximate lumens

### SIG556 CLASSIC

*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*stock:* Folding / length adjustable  
*forend:* Polymer  
*upper receiver:* Steel, Nitron<sup>®</sup> finish  
*lower:* 7075-T6 aluminum, Hard coat anodize  
*barrel length & twist:* 16"; 1 in 7"  
*features:* Swiss design polymer forend w/ optional M1913 rail kit

SIGSAUER.COM

### Butt Pads

The SIG556 SWAT models ship with dual butt pads allowing for an additional 1" increase in LOP.

M1913 Rail Kit

### SIG556 SWAT

*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*stock:* Folding / length adjustable  
*forend:* Alloy quad rail  
*upper receiver:* Steel, Nitron<sup>®</sup> finish  
*lower:* 7075-T6 aluminum, Hard coat anodize  
*barrel length & twist:* 16"; 1 in 7"  
*magazine:* AR-15 Type, Polymer, 30 round  
*features:* Ergonomic swiss design pistol grip  
Extra butt pad adds 1 inch overall length

Some models are shown with optional accessories that are not included.

## SHARED FEATURES

- Robust full length gas piston operating rod system
- Two-position adjustable gas valve ensures function in extreme conditions
- Rotating bolt
- Accepts standard AR type magazines
- 5.56 x 45mm NATO
- Military grade barrel ensures accuracy and durability
- Industry standard 1/2" x 28TPI muzzle thread w/ A2 flash suppressor
- Swiss design length adjustable folding stock
- Multiple sling attachment points

## OPTIONAL ACCESSORIES

- Rotary Diopter Rear Sight
- M1913 Rail Kit for polymer forends
- Interlocking 30 round magazines (set of 2, with connector)

Model Specifications: see pages 62-63

The SIG556 adjustable, side-folding buttstock locks securely in the folded position • The two-position adjustable gas piston allows users to fine-tune the SIG556 to operate flawlessly with all types of ammunition.

# SIG556® DMR / SIGSCM™

## TACTICAL PRECISION

The SIG556 DMR extends the reach of the Classic line through the use of a new 21-inch hammer-forged heavy barrel. The DMR can be adapted for any body type with adjustments to the stock's length-of-pull and comb height. It features a two-stage factory-tuned trigger with a consistent pull weight that will enhance any Designated Marksmen's reputation. The SIGSCM (Sport Configuration Model) is designed especially for sportsmen and is compliant in most states. It features a 16-inch barrel with a crowned muzzle, 10 round magazine and a fixed A2 style stock.

**SIGSCM**  
*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*stock:* A2 fixed  
*forend:* Polymer  
*upper receiver:* Steel, Nitron® finish  
*lower:* 7075-T6 aluminum, Hard coat anodize finish  
*weight w/out mag:* 8.0 lbs  
*length overall:* 36.0"  
*barrel length & twist:* 16" Sport Barrel; 1 in 7"  
*magazine:* AR-15 Type, Aluminum, 10 round  
*features:* Target crowned muzzle

*Picatinny Rail for Accessory Mounting*  
*Two-Position Gas Valve*  
*Hammer-Forged Heavy Barrel*  
*Harris Bipod*

*Standard AR-15/M16 Magazine 10 Round*

**SIG556 DMR**  
*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*stock:* PRS fixed / adjustable  
*forend:* Alloy quad rail  
*upper receiver:* Steel, Nitron finish  
*lower:* 7075-T6 aluminum, Hard coat anodize finish  
*weight w/out mag:* 12.0 lbs  
*length overall:* 41.5"  
*barrel length & twist:* 21" Heavy Barrel; 1 in 10"  
*magazine:* AR-15 Type, Aluminum, 10 round  
*features:* Two-stage trigger with over travel stop  
 Harris bipod

## SHARED FEATURES

- Robust full length gas piston operating rod system
- Two-position adjustable gas valve ensures function in extreme conditions
- Rotating bolt
- Accepts standard AR type magazines
- 5.56 x 45mm NATO
- Military grade barrel ensures accuracy and durability
- M1913 Picatinny rail for mounting optics
- Ambi safety selector
- Fixed stock

## OPTIONAL ACCESSORIES

- Mini Red Dot 1x optical sight
- M1913 Picatinny rail cover set
- Spare magazines (10, 20 & 30 round)

### Tactical Green Laser Aiming Device™

The compact Tactical Green Laser Aiming Device provides 20 times the brightness of conventional red laser sights.

### Optional AR-15/M16 Magazine

20 round metal magazine.

Some models are shown with optional accessories that are not included.

The DMR's Magpul® PRS precision stock is adjustable for both comb height and length-of-pull, providing a custom fit and promoting repeatable accuracy.

# SIG522™

## AN UNCOMPROMISING TRAINING TOOL

Nothing improves performance like training, but centerfire ammunition is often prohibitively expensive. That concern is now alleviated by the SIG522. This full-size rifle handles like the centerfire SIG556®, but fires affordable .22LR rimfire ammo. It includes a metal receiver, collapsible folding and locking stock, Picatinny rail, and just as importantly, the SIG522 offers you affordability, with familiar handling, accessory interchangeability and genuine SIG SAUER® quality.

**SIG522 SWAT**  
*action:* Semi-automatic  
*operating system:* Blowback  
*caliber:* .22LR  
*stock:* Folding / length adjustable  
*forend:* Alloy quad rail  
*upper receiver:* 7075-T6 aluminum, Hard coat anodize  
*lower:* Polymer  
*weight w/out mag:* 6.6 lbs  
*length overall:* 35.1"; 33.6" collapsed; 26.1" folded  
*barrel length & twist:* 16.6"; 1 in 16"  
*magazine:* Polymer, 10 or 25-round  
*features:* Swiss type folding stock  
 Ambidextrous magazine catch

**SIG522 CLASSIC**  
*action:* Semi-automatic  
*operating system:* Blowback  
*caliber:* .22LR  
*stock:* Folding / length adjustable  
*forend:* Polymer  
*upper receiver:* 7075-T6 aluminum, Hard coat anodize  
*lower:* Polymer  
*barrel length & twist:* 16.6"; 1 in 16"  
*magazine:* Polymer, 10 or 25 round  
*features:* "Gas valve" storage cavity  
 Multiple sling attachment points

M1913 Rail Kit

**Mini Red Dot Sight™**  
 The STS-081 has a parallax-free 1x red dot with 4 MOA reticle, glass lenses with anti-reflex, multilayer coating, and 11 daylight settings.

### SHARED FEATURES

- Reliable blowback operation
- Economical .22LR ammunition
- Integrated M1913 Picatinny receiver rail for mounting optics
- 7075-T6 Aircraft grade aluminum upper receiver with hard coat anodize finish
- Lightweight polymer lower
- Industry standard 1/2"x 28TPI muzzle thread with AR style flash suppressor
- Swiss design length-adjustable folding stock
- Multiple sling attachment points

### OPTIONAL ACCESSORIES

- Mini Red Dot 1x optical sight
- M1913 Rail Kit for polymer forends
- Spare magazines (10 and 25 round)

Visit [sigsauger.com](http://sigsauger.com) for complete SIG522 line

Model Specifications: see pages 62-63

Adjustable stock snaps and securely locks into a folded position with a length-of-pull that can be preset by the user. • Integral, reversible sling swivel.

# TACTICAL PISTOLS

## A NEW CONCEPT

All the features and exceptional performance of our SIG556® rifle are now available in two pistol configurations, both offering a rugged, reliable, accurate system. The P556™ pistol features the same proven two-position adjustable gas piston operating rod system used on the SIG556 rifle, joined to a lightweight alloy trigger housing that accepts standard AR magazines. Meanwhile, the like-sized rimfire P522™ pistol serves as both an inexpensive trainer and hard-edged “fun gun.”

**P556 SWAT**  
*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*forend:* Alloy quad rail  
*upper receiver:* Steel, Nitron® finish  
*lower:* 7075-T6 aluminum, Hard coat anodize  
*barrel length & twist:* 10"; 1 in 7"  
*features:* Ambi safety selector  
 Single point sling attachment

**P556**  
*action:* Semi-automatic  
*operating system:* Gas piston, rotating bolt  
*caliber:* 5.56 x 45mm NATO  
*forend:* Polymer  
*upper receiver:* Steel, Nitron® finish  
*lower:* 7075-T6 aluminum, Hard coat anodize  
*barrel length & twist:* 10"; 1 in 7"

**Tactical Green Laser Aiming Device™**  
 The compact Tactical Green Laser Aiming Device provides 20 times the brightness of conventional red laser sights.

The P556 pistol has a single sling attachment points. • Convenient thumb selector switch for safe or fire position is standard on P556 and P522 models.

**P522**  
*action:* Semi-automatic  
*operating system:* Blowback  
*caliber:* .22LR  
*forend:* Polymer  
*upper receiver:* 7075-T6 aluminum, Hard coat anodize  
*lower:* Polymer  
*barrel length & twist:* 10.6"; 1 in 16"  
*features:* Ambi mag catch  
 Flash suppressor

**Forend Covers (optional)**  
 Lightweight polymer covers offer protection for the quad rails and provide a comfortable gripping surface.

Some models are shown with optional accessories that are not included.

**P522 SWAT**  
*action:* Semi-automatic  
*operating system:* Blowback  
*forend:* Alloy quad rail  
*upper receiver:* 7075-T6 aluminum, Hard coat anodize  
*lower:* Polymer  
*barrel length & twist:* 10.6"; 1 in 16"  
*features:* M1913 flat top receiver  
 Multiple sling attachment points

## SHARED FEATURES

- Compact form factor & lightweight
- Rifle performance in a pistol package
- Industry standard 1/2" x 28 TPI muzzle thread with flash suppressor
- M1913 Picatinny receiver rail for mounting optics
- Ambi safety selector
- Multiple sling attachment points
- Tool-free disassembly for easy maintenance

## OPTIONAL ACCESSORIES

- Mini Red Dot 1x optical sight
- G-LAD Green Laser Aiming Device
- M1913 Rail Kit for polymer forends

Visit [sigsauger.com](http://sigsauger.com) for complete P556 and P522 Pistol line

Model Specifications: see pages 62-63

# SIG516™

## THE FULFILLED POTENTIAL OF THE AR-15/M16

One of the most tested and proven weapons systems in the world achieves ultimate refinement with the introduction of the SIG516 rifle. With its ambidextrous selector switch, chrome-lined, nitride-finished, military grade barrel and adjustable, three- or four-position gas regulator, the SIG516 incorporates all of the most desirable mechanical improvements. Add to these a free-floating quad rail forend and barrel, and a SOPMOD stock and you have the most advanced, versatile AR-based rifle available.

Though often neglected on sporting guns, a dust cover is included to keep the action clean and functioning in adverse conditions. • The ergonomic charging handle clears the comb of the stock in any position for fast, hassle-free first round chambering.

**SIGSAUER**

### SHARED FEATURES

- Gas piston operating system
- Three-position gas regulator
- 5.56 x 45mm NATO
- Free-floating military grade chrome lined barrel
- M1913 Picatinny flat top upper
- 7075-T6 Aircraft grade aluminum upper & lower receiver with hard coat anodize finish
- Free-floating aluminum quad rail forend
- Multiple sling attachment points
- Accepts all AR type magazines

### OPTIONAL ACCESSORIES

- Mini Red Dot 1x optical sight
- G-LAD Green Laser Aiming Device

Visit [sigsauger.com](http://sigsauger.com) for complete SIG516 line

Model Specifications: see pages 62-63

#### SIG516 PRECISION MARKSMAN

The gas valve is specially sized to fit a 5.56 x 45mm NATO cartridge, meaning you always have the tool needed for adjustment when in the field.

# SIG716™

## FAMILIAR HANDLING, UNFAMILIAR POWER

SIG SAUER® has taken the proven features of the A2 and M4 and applied them to an AR-based rifle in the AR's original chambering—the potent 7.62 x 51mm. Gas piston operation, a Picatinny rail, free-floating quad rail forend and barrel, collapsible SOPMOD stock, and compatibility with M14 magazines makes this the medium-bore AR of choice.

The sturdy SOPMOD stock is quickly adjustable for length-of-pull, suiting different shooters and allowing for body armor. • The quad rail handguards allow fast attachment of accessories and are free-floated so there is no effect on accuracy.

### SHARED FEATURES

- Gas piston operating system
- Three-position gas valve
- 7.62 x 51mm NATO
- Free-floating military grade chrome lined barrel
- M1913 Picatinny flat top upper
- 7075-T6 Aircraft grade aluminum upper & lower receiver w/ hard coat anodize finish
- Free-floating aluminum quad rail forend
- Multiple sling attachment points
- M14 type magazine

### OPTIONAL ACCESSORIES

- Mini Red Dot 1x optical sight
- Harris Bipod

# TACTICAL 2™ / SSG 3000™

## SINGLE-SHOT CONFIDENCE

Proven in the field by tactical operators around the world, both the straight-pull Tactical 2 and the short-throw bolt SSG 3000 rifles are routinely capable of delivering sub-MOA accuracy. Each comes standard with fully adjustable ergonomic stocks, quick and easy barrel interchangeability that maintains a constant zero and picatinny rail for accessory mounting. Uniquely engineered and exceptionally rugged, these long range rifles perform with surgical precision.

The Tactical 2 rifle's high-tech stock is fully adjustable for length-of-pull and comb height. • The bolt head is auto-centering and self-headspacing, locking into a 360-degree collet. • The barrel and bolt head can be swapped out to quickly change calibers.

### SHARED FEATURES

- Fully adjustable tactical stock
- M1913 Picatinny receiver rail
- Adjustable trigger
- Flash suppressor/muzzle brake optional on Tactical 2
- .308 WIN / 7.65 x 45 NATO caliber
- User replaceable cold hammer-forged match grade barrels
- Bipod interface
- Sub-MOA performance

### OPTIONAL ACCESSORIES

- Harris Bipod
- Replacement barrels

Visit [sigsauger.com](http://sigsauger.com) for complete Tactical 2/SSG 3000 line

Model Specifications: see pages 62-63

#### TACTICAL 2

- action:* Single
- operating system:* Straight-pull bolt action
- calibers:* .223 REM; .308 WIN; .300 WIN MAG; .338 LAPUA
- receiver:* Billet aluminum
- finish:* Hard coat anodize
- trigger:* Single stage adjustable
- stock:* Blaser composite; adjustable butt plate & cheek piece
- weight:* 11.9 lbs - 12.6 lbs
- length:* 44.5" - 46.9"
- barrel length:* 24.7" - 27.0"
- magazine:* Polymer box
- features:* 360 degree radial locking bolt head  
Caliber interchangeability  
Left & right hand operation

#### SSG 3000

- action:* Single
- operating system:* Short throw bolt action, 6 lug
- calibers:* .308 WIN
- receiver:* Machined steel billet
- finish:* Black oxide
- trigger:* Two stage adjustable
- stock:* McMillan® composite
- weight:* 12.0 lbs
- length:* 46.4"
- barrel length:* 23.5"
- magazine:* Steel box, 5 round

The SSG 3000 rifle's short throw bolt speeds reloading while the six locking lugs ensure exceptional strength.

# SIG SAUER® | PISTOLS

With a hard-earned reputation for cutting edge performance and rock-solid quality, SIG SAUER pistols offer professional and recreational shooters alike, the finest handguns in the world.

# P250®

## EVERYTHING CHANGES - EXCEPT THE QUALITY

“One out of many” is America’s motto, but an apt motto for the P250 would be “many out of one.” That’s because the P250 can be converted into dozens of configurations to suit the needs and fit the hands of virtually any shooter. With a modular fire control assembly that can be dropped into an assortment of grip module/slide combinations in four different calibers, the P250 can become the one pistol you need it to be.

### P250 Caliber X-CHANGE™ Kit

The kit contains everything you need to exploit the P250 modularity and to reconfigure the pistol to any one of three sizes, in full size, compact, or subcompact models. It includes a slide, barrel, recoil spring, medium grip module and magazine and is available in 9mm, .357SIG, .40S&W and .45ACP.

SIGSAUER.COM

### P250 SUBCOMPACT

*trigger:* DAO  
*sights:* SIGLITE® night sights  
*slide finish:* Natural stainless  
*frame finish:* Polymer  
*calibers:* 9mm, .357SIG, .40S&W or .45ACP  
*features:* Slim snag-free profile

The P250 is offered in full, compact and subcompact models. • All are offered with SIGLITE night sights.  
 • The stainless steel fire control assembly, the heart of the P250, fits easily into any polymer grip modules.

### P250 FULL SIZE

*trigger:* DAO  
*sights:* SIGLITE night sights  
*slide finish:* Nitron®  
*frame finish:* Polymer  
*calibers:* 9mm, .357SIG, .40S&W or .45ACP  
*features:* Integral accessory rail

### Takedown in Seconds

1. Make sure the pistol is unloaded.
2. Remove the slide assembly.
3. Remove the takedown lever.
4. Pull back on the hammer, remove the fire control assembly.
5. Ready to reassemble.

### P250 COMPACT

*trigger:* DAO  
*sights:* SIGLITE night sights  
*slide finish:* Nitron  
*frame finish:* Polymer

### P250 SUBCOMPACT

*trigger:* DAO  
*sights:* SIGLITE night sights  
*slide finish:* Nitron  
*frame finish:* Polymer  
*calibers:* 9mm, .357SIG, .40S&W or .45ACP  
*features:* Slim snag-free profile

# P250®

## THE DEFINITION OF MODULARITY

Too often, versatility is achieved at the expense of excellence, but not with the P250. The serialized fire control module—the part that makes it a “gun”— can easily be switched between grips of different sizes and different calibers. Instead of one pistol, the P250 owner has a gun that can assume many configurations.

### Modular Frame and Fire Control Assembly

The fire control assembly is the heart of the pistol and is serial-numbered. The number is visible through a window in the grip module, regardless of what grip module you choose to use.

Fire control assembly is shown at actual size, seated in the polymer grip module.

**P250 Short Trigger (optional)**  
Designed for shooters with smaller hands. Trigger length is shortened to enhance trigger manipulation for better shooting performance.

**Fire Control Assembly**  
The stainless steel fire control assembly contains the parts that actuate the pistol and are contained as a single, modular unit that can be moved from one grip module to another.

## FITTED TO THE TASK— AND THE SHOOTER

The two overriding questions that must be asked when purchasing a pistol are: How will it be used, and who is going to use it? The P250 makes those questions much less critical by being adaptable to a variety of tasks and a variety of shooters. It has the ability to be configured in everything from a full sized range pistol to a deep concealment weapon, in any one of four calibers. And, the selection of grip modules, coupled with a standard or short trigger, means it can be fitted to a wide range of hand sizes.

## NEW! SIG SAUER P250 2SUM™

You can now get complete out-of-the-box versatility with the SIG SAUER P250 2SUM. This offer provides you with a full size P250, ideal for duty, home defense or sport, and all of the components to rapidly convert it to the P250 Subcompact, a perfect concealed carry gun.

# E<sup>2</sup> ENHANCED ERGONOMICS

## A NEW LOOK AND FEEL FOR THE CLASSIC P226® & P229®

SIG SAUER's new E<sup>2</sup> Enhanced Ergonomics P226 and P229 pistols incorporate a reduced circumference, one-piece modular grip with improved texture. Used in conjunction with other ergonomic innovations including the reduced reach trigger, SRT™ Short Reset Trigger system and more, the E<sup>2</sup> pistols ergonomically fit a much wider range of hand sizes.

### SHARED FEATURES

- "Screwless" modular one piece grip
- Upgraded grip texture
- Reduced backstrap and grip circumference
- Reduced trigger reach
- Short Reset Trigger system
- E<sup>2</sup> decocking lever
- 15 round flush fit magazine

### OPTIONAL ACCESSORIES

- Enhanced slide catch lever for high, two-hand grip
- STL-900L Tactical Light/Laser
- Roto Retention Paddle Holster

Visit [sigsauger.com](http://sigsauger.com) for complete E<sup>2</sup> line

# P220®

## .45 CALIBER POWER HARNESSSED BY SWISS ENGINEERING

The P220 promotes peace of mind by seamlessly blending power with reliability. Astonishing out-of-the-box accuracy, excellent ergonomics, and exceptional dependability have long made the P220 the gold standard for large caliber, double-action, semi-automatic pistols.

**P220**  
*trigger:* DA/SA DAK™ or SAO  
*sights:* Post & dot contrast or SIGLITE® night sights  
*slide finish:* Nitron®  
*frame finish:* Black hard coat anodize  
*calibers:* .45ACP  
*features:* Integral accessory rail

**Magazine Pouch**  
 Add firepower to the knock-down power with our .45ACP capacity Magazine Pouch. It's lightweight and no-maintenance, with a paddle for quick attachment or removal.

**.22LR Rimfire Conversion Kit**  
 Enjoy the fit and feel of your P220 while shooting inexpensive rimfire ammunition with the .22LR Conversion Kit. The kit includes a slide, barrel, recoil spring, and magazine. Just strip your P220 and reassemble it with the kit's parts.

**P220**  
*trigger:* DA/SA DAK or SAO  
*sights:* Post & dot contrast or SIGLITE night sights  
*slide finish:* Natural Stainless  
*frame finish:* Black hard coat anodize  
*calibers:* .45ACP  
*features:* Integral accessory rail

**P220 CARRY**  
*trigger:* DA/SA DAK or SAO  
*sights:* Post & dot contrast or SIGLITE night sights  
*slide finish:* Natural Stainless  
*frame finish:* Black hard coat anodize  
*calibers:* .45ACP  
*features:* Integral accessory rail

**P220 COMPACT**  
*trigger:* DA/SA  
*sights:* SIGLITE night sights  
*slide finish:* Nitron®  
*frame finish:* Black hard coat anodize  
*calibers:* .45ACP  
*features:* Integral accessory rail

### SHARED FEATURES

- Nitron-coated or natural stainless steel slide
- Black hard coat anodize aluminum frame
- Integral accessory rail
- Available SIGLITE night sights
- 4-point safety system with decocking lever, patented automatic firing pin safety block, safety intercept notch, and trigger bar disconnecter.

### OPTIONAL ACCESSORIES

- Short Reset Trigger
- .22LR Rimfire Conversion Kit
- STL-900L Tactical Light/Laser
- Double magazine pouch

Visit [sigsauger.com](http://sigsauger.com) for complete P220 line

P220 Specialty Models: see pages 42, 44, 48, 50, 52, 54, Model Specifications: see pages 64-IBC

Contrast type, low profile sights are mounted in dovetail slots for adjustment or replacement.  
 • Accessory rail is now integral to all P220 models. • The compact version enhances the concealability of the proven P220 design.

# P226®

## THE STANDARD BY WHICH ALL CONTEMPORARY SIDEARMS ARE MEASURED

The P226 became the most esteemed full size, high-capacity pistol from the moment it was introduced. Time has only enhanced its reputation. The P226 distinguishes itself in the hands of special forces, law enforcement professionals, and discriminating citizens with uncompromising performance when it counts the most.

**Roto Retention Holster**  
This durable contoured black polymer holster features an easy-to-use release system, fully adjustable for cant. Just press the lever and remove the pistol.

**P226 BLACKWATER TACTICAL**  
*trigger:* DA/SA SRT™

### .22LR Rimfire Conversion Kit™

The rimfire conversion kit comes complete with a machined, hard coat-anodized aluminum slide, recoil spring assembly, barrel, and magazine. Installation requires only field stripping of the pistol and then reassemble with the kit's components.

SIGSAUER.COM

# P239<sup>®</sup>

## THE CLASSIC P239

The P239 takes the design excellence of the P229 and scales it down to create an ideal conceal carry or back-up pistol. Shorter dimensions and a single-stack magazine contribute to a thinner, more discrete profile, without sacrificing caliber choice. Available in 9mm, .357SIG, and .40S&W, it's a SIG Classic without compromise.

**P239 TACTICAL**  
*trigger:* DA/SA SRT™  
*sights:* SIGLITE® night sights  
*slide finish:* Nitron®  
*frame finish:* Black hard coat anodize  
*calibers:* 9mm  
*features:* Threaded barrel  
Front cocking serrations  
Slim profile

### Roto Retention Holster

This durable contoured black polymer holster features an easy-to-use release system, fully adjustable for cant. Just press the lever and remove the pistol.

SIGSAUER.COM

### Conceal Carry

The P239 was designed for concealment. Nonetheless, it doesn't sacrifice features or handling.

**P239 SAS GEN II**  
*trigger:* DA/SA SRT  
*sights:* SIGLITE night sights

# COMPETITION SHOOTING

## MAX MICHEL, JR. – CHAMPION

Five-time USPSA® National Champion and three-time World Speed Shooting Champion Max Michel, Jr. has joined SIG SAUER® as Captain of the SIG SAUER Shooting Team and Manager of Competitive Shooting Activities.

Michel is no stranger to victory, having won seven national titles and three world titles. His performance in competition promotes the SIG SAUER® marque, while his insights aid in the development of everything from hardware to shooting techniques.

His involvement with SIG SAUER includes competing in shooting events, USPSA and IDPA, as the team captain and managing the company's involvement in the competitive shooting market. Michel works with other shooters and handles shoot sponsorships and the company's co-marketing efforts. He also works with SIG SAUER Product Managers to better anticipate and respond to the demands of the competitive sports firearms market. Additionally, Michel teaches select courses at the prestigious SIG SAUER Academy as a member of that facility's highly esteemed faculty.

Michel brings 12 years of experience and a resume rich in achievement to the SIG SAUER Shooting Team. His expertise will benefit the product line and SIG SAUER Academy, as well as the team.

# CLASSIC .22'S

## FIT AND FEEL, RIMFIRE COST AND COMFORT

SIG SAUER® Classic .22's offer the size, feel, and controls of the company's classic centerfire pistols chambered in fun, affordable .22LR. Now you can practice your marksmanship and gun handling without the noise, recoil, and expense of centerfire ammunition. Moreover, they fit the holsters and accessories of their centerfire counterparts.

### Short Trigger

Designed for shooters with small hands to enhance trigger manipulation for better shooting performance.

- STL-900L Tactical Light/Laser
- Short Reset trigger
- Mini Red Dot Sight with Bridge Mount

Visit [sigsauger.com](http://sigsauger.com) for complete Classic .22LR line

Model Specifications: see pages 64-IBC

Shoot all day at the range perfecting your shooting skills using affordable .22LR ammo.

# MOSQUITO®

## SOMETIMES THE BUZZ IS GOOD

The buzz about the SIG SAUER® Mosquito, is that—this scaled down, rimfire version of the company’s popular P226® reduces the noise, recoil and expense of centerfire shooting but keeps the accuracy, precision and exhilaration the same. The polymer frame, blowback-operated pistol is offered in a wide range of configurations.

### Roto Retention Paddle Holster with Integrated Magazine Pouch

Lightweight and maintenance-free, this easy on/off holster has an ergonomic retention system, an integral mag pouch, and is fully adjustable for cant.

# ELITE

## SOMETIMES EXCELLENCE JUST ISN'T ENOUGH

While SIG SAUER® pistols are functionally flawless right out-of-the-box, some shooters can't resist taking things up a notch. For them, SIG SAUER offers the Elite series, four of our most popular models tricked out with all the features a shooter could want, from beavertails to custom grips and more.

**STL-900L Tactical Light & Laser**  
The integral accessory rail on Elite pistols (except the 1911 Platinum Elite Carry) allows fast and easy installation of accessories including the STL-900L Tactical Light and Laser.

SIGSAUER.COM

Visit [sigsauger.com](http://sigsauger.com) for complete Combat line

Model Specifications: see pages 64-IBC

### STL-900L Tactical Light & Laser

The quick-attaching STL-900L, with its combination of tactical light and laser, enhances the ready-for-anything attitude of the Combat series.

### .22LR Rimfire Conversion Kit™

By swapping out the original slide, barrel, recoil system, and magazine for those contained in the .22LR Rimfire X-CHANGE Kit, Combat series owners can stay sharp training with mild and inexpensive rimfire ammunition.

# EQUINOX®

## BECAUSE BEAUTY AND FUNCTIONALITY AREN'T MUTUALLY EXCLUSIVE

SIG SAUER® pistols have long provided their owners with peace of mind. Now the SIG SAUER Custom Shop Equinox series adds pride of ownership to that feeling. The distinctive polished slide flats and nickel controls contrast with the dark-coated surfaces for a visually arresting two-tone appearance. When combined with its practical features, the Equinox series is pretty to look at and beautiful to shoot.

**P229® EQUINOX**  
*trigger:* DA/SA  
*sights:* TRUGLO® tritium fiber optic front sight, SIGLITE® rear sight  
*slide finish:* Two-Tone with flat top  
*frame finish:* Black hard coat anodize

## Custom Shop Grips

Installation of distinctive grips is but one of the services available from the Custom Shop. From custom gunsmithing to complete refurbishing (or just routine maintenance), the Custom Shop ensures you get the SIG SAUER you want just the way you want it.

# SAS™ GEN II

## HIT YOUR TARGET, NOT A SNAG

SIG SAUER® SAS GEN II pistols are three of our most popular carry guns optimized for concealment. Whether you need a flat, single-stack pistol, a compact high-capacity gun, or something in a large caliber that's concealable — the SAS GEN II will present smoothly, thanks to thorough dehorning that provides a snag-free profile.

**Threaded Barrel**  
Optional threaded barrels are available in 9mm, and .45ACP.

### P239® SAS GEN II

- trigger:* DA/SA SRT™
- sights:* SIGLITE® night sights
- slide finish:* Natural stainless
- frame finish:* Black hard coat anodize
- calibers:* 9mm, .357SIG or .40S&W
- features:* Dehorned frame & slide  
Ultra smooth, snag-free profile  
Custom Shop logo engraved on slide

### P239 SAS GEN II

- trigger:* DA/SA SRT™
- sights:* SIGLITE® night sights
- slide finish:* Nitron®
- frame finish:* Black hard coat anodize
- calibers:* 9mm, .357SIG or .40S&W
- features:* Dehorned frame & slide  
Ultra smooth, snag-free profile  
Custom Shop logo engraved on slide

### P220® CARRY SAS GEN II

- trigger:* DA/SA SRT
- sights:* SIGLITE night sights
- slide finish:* Nitron
- frame finish:* Black hard coat anodize
- calibers:* .45ACP
- features:* Dehorned frame & slide  
Ultra smooth, snag-free profile  
Custom Shop logo engraved on slide

All sharp edges are broken and rounded to prevent snags. • The beveled slide face eases reholstering. • The slide's flats are engraved with the Custom Shop logo.

## SHARED FEATURES

- DA/SA SRT trigger
- Nitron-coated or natural stainless steel slide
- Black hard coat anodize aluminum frame
- Dehorned slide and frame

- slide finish:* Nitron
- frame finish:* Black hard coat anodize
- calibers:* 9mm, .357SIG or .40S&W
- features:* Dehorned frame & slide  
Ultra smooth, snag-free profile  
Short trigger  
Custom Shop logo engraved on slide

### SIG SAUER Armorer Tool Kit

This kit comes complete with all the tools an armorer needs to detail strip SIG SAUER pistols for minor repairs, routine maintenance, and parts replacement, all in a handy, self-contained carrying case.

# SIG SAUER ACADEMY™

## WHERE THE PROFESSIONALS TRAIN

Since 1990 SIG SAUER Academy has been on the leading edge of training for both armed professionals and responsible citizens. Combining classroom theory reinforced with live-fire training, the Academy promotes conflict survival and resolution through both knowledge and skills acquisition

### SIG SAUER DVDS

SIG SAUER DVDs offer a convenient means of guiding your self-defense training and reinforcing the principles taught at SIG SAUER Academy. The presentations by SIG SAUER professionals will help hone and maintain your tactical skill set.

## SIG SAUER ACADEMY™ COURSES

Experienced professionals and responsible citizens look to SIG SAUER Academy for quality instruction. With the ability to adapt training to suit a particular mission or a student's abilities, SIG SAUER Academy offers a broad selection of training that will make any student a better shooter, guaranteed.

## INSTRUCTOR DEVELOPMENT

The SIG SAUER ACADEMY Instructor certification is a coveted achievement recognized by many state police standards and training boards. Valid for three years, each course allows the student to establish a reproducible training foundation. Instructor certification courses include Force-on-Force, Range Master, Shotgun, AirSoft, Active Shooter, Patrol Rifle, Master Firearms Trainer, and more.

## SKILL DEVELOPMENT

Select courses were researched and developed by the SIG SAUER ACADEMY to strengthen the armed professional's skill set. Designed to better the daily execution of a professional's responsibilities, these courses focus on skills including close quarters tactics, executive protection and sniping, as well as operational tactics and techniques.

In addition to the latest training for uniformed professionals, the SIG SAUER ACADEMY has committed itself to offering the best training for responsible citizens. Regardless of the skill level, student's abilities are acknowledged and training and development proceed appropriately. Foundational classes teach or refresh basic knowledge in shooting rifles, pistols, or shotguns. Shooters wishing to be competitive in the practical shooting community can hone their skills in a course that is specifically developed for a number of disciplines, while those wishing to enhance their civil awareness skills can take a defensive firearms or concealed carry course. Hunters and survivalists can also benefit from a comprehensive course covering skills including land navigation and hunting with a handgun.

## ARMORER CERTIFICATION

Factory-authorized maintenance to a SIG SAUER product can only come from someone with a SIG SAUER ACADEMY armorer certification. Each course takes a hands-on approach with exercises in troubleshooting, disassembly and reassembly procedures, and techniques. The process results in a learning experience that builds retention of the course materials, and a factory certification valid for 3 years.

## INTERACTIVE ARMORER INSTRUCTION CDS

These CDs are the latest training tools produced by the SIG SAUER ACADEMY. The courses are comprehensive lessons taking viewers through each step of disassembly and reassembly using 3-D graphics. The graphic elements offered throughout the video bring a level of understanding that is rarely achieved by conventional methods of instruction. The viewer can rotate and zoom on any axis for a detailed look at parts and operation. These lessons make for an indispensable reference tool or a valuable refresher following a formal SIG SAUER ACADEMY armorer certification course.

### CONTACT

For more information on the SIG SAUER ACADEMY and a complete listing of courses, visit [www.sigsaueracademy.com](http://www.sigsaueracademy.com) or call (603) 679-2003.

Academy offerings can improve anyone's firearm-handling skills, including tactical law enforcement personnel, responsible citizens, competitive shooters and hunters/outdoorsmen.

# CONVERSION KITS

## MAXIMIZE THE PERFORMANCE

SIG SAUER® conversion kits offer a fast, convenient, affordable way to add to your shooting enjoyment by providing caliber interchangeability. Shoot either centerfire or rimfire, while retaining the feel and performance of your favorite SIG SAUER pistol.

### P250® Caliber X-CHANGE™ Kit

The modular P250 allows you to select any of several centerfire calibers. Just disassemble the pistol and reassemble it with the X-CHANGE Kit's barrel/slide assembly, grip module, and magazine. Kits are available in full, compact or subcompact in 9mm, .357SIG, .40S&W and .45ACP.

#### Features

- Slide (Stainless or Nitron® finish)
- Grip module assembly
- Recoil Spring and Guide
- SIGLITE® Night Sights
- Magazine included

### .22LR Rimfire Conversion Kit

Converting your pistol to rimfire makes practice affordable while also allowing you to use a familiar gun. Moreover, as a .22LR, it works well for .22LR-cal. bullseye matches and training new shooters. The kit is available for the P220R™, P226R™, P229R™ and P228/P229.

#### Features

- Black anodized aluminum slide
- Recoil Spring and Guide
- Adjustable target sights
- .22LR magazine included

### Centerfire X-CHANGE™ Kit

Add the spice of variety to your shooting by converting to a different caliber. Just swap out your standard slide/barrel assembly and magazine for those of the Centerfire X-CHANGE Kit. Available in 9mm, .357SIG, .40S&W and .45ACP.

#### Features

- Slide with Nitron finish
- Recoil Spring and Guide
- SIGLITE Night Sights
- Magazine included
